North Scarborough Soccer Club

Concussion Policy

North Scarborough Soccer Club follows and supports concussion protocol provided by the National Coaching Certification Program and ensures that all coaches have taken the mandatory concussion courses as part of our screening process

- Coaches will also be required to complete the online module 'Making Head Way in Soccer Concussion Course' provided by the National Coaching Certificate Program (NCCP).
- This online module can be found on the NCCP website and will require 60-90 minutes to complete. Previous community courses from the old system (Child, Youth & Senior) will not be recognized due to changes implemented in the new development system.
